ADDITIONAL STANDARDS FOR WAIVER OF SURRENDER CHARGE BENEFIT CHECKLIST

Effective Date: March 5, 2015

Scope: These standards apply to waiver of surrender charge benefits (“waiver benefits” or “waiver benefit”) that are built into individual deferred variable and non-variable annuity contracts or added to such contracts by rider, endorsement or amendment. The waiver benefits are triggered by a qualifying event associated with either the annuitant or owner, as specified in the contract or waiver benefit form.

Mix and Match: These standards are available to be used in combination with State Product Components as described in Section 111(b) of the Operating Procedure for the Filing and Approval of Product Filings (https://insurancecompact.org/compact_rlmkng_record.htm). Please note that this applies to the entire state or Compact approved forms and NOT to particular provisions contained within such forms. Submit the following:

1. STATEMENT OF INTENT indicating the intent to use one or more State Product Components with a Commission Product Component. The Statement of Intent must identify the Compacting State(s) wherein the combined Product Components will be offered or sold, and sufficiently identify for each of such Compacting State(s) the State Component(s) that will be used with the Commission Component by listing the form numbers and Compacting State approval dates; and
2. CERTIFICATION stating that the combination of a Commission Component and a State Component does not contain inconsistent, ambiguous, unfair, inequitable or misleading clauses, or exceptions or conditions that unreasonably affect the risk purported to be assumed. The Certification must be signed by a company officer. This Certification shall not give rise to any presumption that the combination of Product Components, in fact, meets this standard for purposes of any action by the Commissioner of a Compacting State to prohibit the combined use of a Commission Product Component with a State Product Component. https://insurancecompact.org/industry_resources.htm

Self-Certification: These standards are not available to be filed using the Rule for the Self-Certification of Product Components Filed with the Interstate Insurance Product Regulation Commission.

Filing Information Notice (FIN) 2009-4 provides more guidance regarding the submission of filings using the “mix and match” process: <http://www.insurancecompact.org/fin.htm>
